

The background of the image is a dense, repeating geometric pattern. It consists of a grid of circles, each with a smaller circle inside it. The spaces between these circles are filled with downward-pointing triangles. The entire pattern is in black and white. In the center of the image, there is a solid black circle. Inside this circle, the words "CHARISMA" and "KARTE" are written in white, bold, sans-serif capital letters. "CHARISMA" is on the top line and "KARTE" is on the bottom line, both centered horizontally.

**CHARISMA
KARTE**

The background of the image is a dense, repeating geometric pattern. It consists of a grid of circles, with each circle bisected by a horizontal line. Below the line, the circle is filled with black, while the area above the line is white. This creates a series of downward-pointing triangles. These white triangles are arranged in a staggered grid, fitting into the spaces between the black circles. The overall effect is a high-contrast, optical illusion-like texture.

**CHARISMA
KARTE**

The background of the card is a repeating geometric pattern. It consists of a grid of circles. Each circle is bisected by a horizontal line. The top half of each circle is a solid black semi-circle, and the bottom half is a solid white semi-circle. This creates a series of black triangles pointing downwards and white triangles pointing upwards, interlocking across the grid.

**CHARISMA
KARTE**

The background of the card is a dense, repeating geometric pattern. It consists of a grid of circles, with each circle bisected by a horizontal line. Below the line, the circle is filled with a solid black color, while the area above the line is white. This creates a series of black triangles pointing downwards, which are arranged in a staggered grid relative to the white circles above them. The overall effect is a high-contrast, optical illusion-like texture.

The background of the card is a repeating geometric pattern. It consists of a grid of circles. Each circle is bisected by a horizontal line. The top half of each circle is a white triangle pointing downwards, and the bottom half is a black triangle pointing upwards. This creates a tessellated effect of white and black triangles.
